Sound characteristics	The RZ Conservatory Clarinets and the RZ G Clarinets are distinguished by their balanced tonal characteristics while maintaining ease of playing throughout the registers.		The RZ Bohema Clarinets are distinguished by their mellow ('dolce') tonal characteristics while maintaining a balanced sound throughout the registers.	The thick wall design adds overtones to the tonal spectrum of the RZ Bohema Star clarinets. The sound appears dark and colorful, bearing a resemblance to the so called 'bel canto', while maintaining ease of playing throughout all registers.	The very special design of the RZ Capriccio Series clarinets adds overtones and brilliant resonance to the tonal spectrum. The sound appears full, colorful and light, bearing a resemblance to the so called 'individual soloist expression', while it remains easy and comfortable to play throughout the registers	
Our buyers recommendation	Great for ambitious students or doublers who are looking for a high quality clarinet at affordable cost.	The first professional model, also great for ambitious Students and doublers looking for a step up from the Conservatory.	Our ambassador Milan Rericha is playing RZ Bohema in some of his extraordinary public performances. Do we need to say more? 😊	Professional model for experienced players who are looking for a unique sound.	The combination between outstanding quality and marvelous design makes this model a great choice for professionals.	The characteristics of the Capriccio clarinet combined with innovative carbon technology. The clarinet is lightweight with an awesome sound.

Sound characteristics	<i>The RZ Solo clarinet is adds overtones and brilliant resonance to the tonal spectrum. The sound appears full, colorful and light, bearing a resemblance to the so called 'individual soloist expression', while it remains easy and comfortable to play throughout the registers.</i>	<i>Like all other RZ Bohema clarinets, the RZ Bohema E-flat clarinet is distinguished by its mellow ('dolce') tonal characteristics while maintaining a balanced sound throughout the registers.</i>
Our buyers recommendation	<i>RZ Solo is our high-end-model based on the Capriccio design and with RZ patented technology against crack risk. The 2 replaceable pieces for the upper joint (Grenadilla and Ebonite) allow additional sound variations. For those who simply aim for the best!</i>	<i>Professional or ambitious non-professional players looking for a high-quality E-flat clarinet with typical RZ-sound and easy playing characteristics.</i>
